

# TINA MEDIX TECHNOLOGIES INT. CO.

For Medical Equipment, Consumables  
& Surgical Supplies

## ABOUT US

Tina Medix Technologies Int. Co. is a Dynamic Medical company specialized in importing Medical Equipment, Consumables and Surgical Supplies in the region.

Tina Medix established as an Independent company in 2010 and since then, it has been supplying medical equipment and consumables for private and public sectors.

## VISION

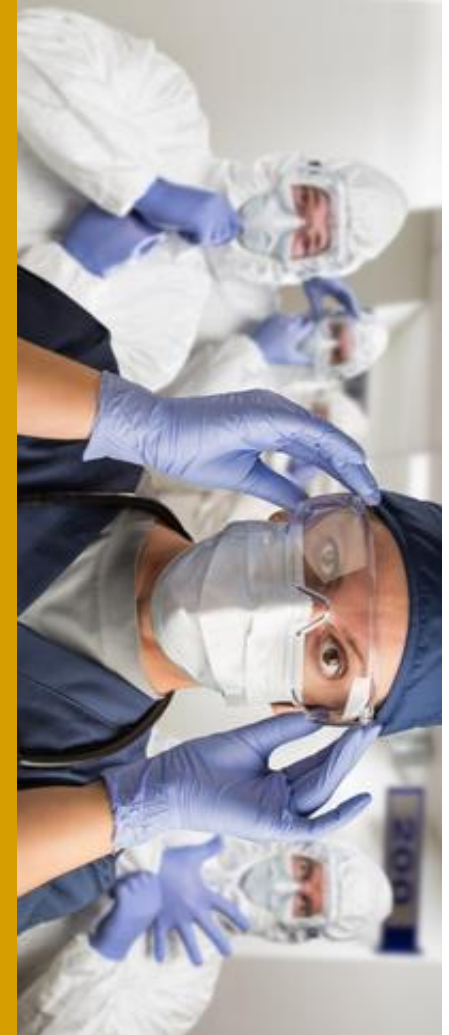

Our Vision is to build a Total Brand Value by promoting High Standard Products and developing Long term Partnerships with Customers and End users. Innovation, Integrity and Teamwork are the keys for our company growth and market leadership.

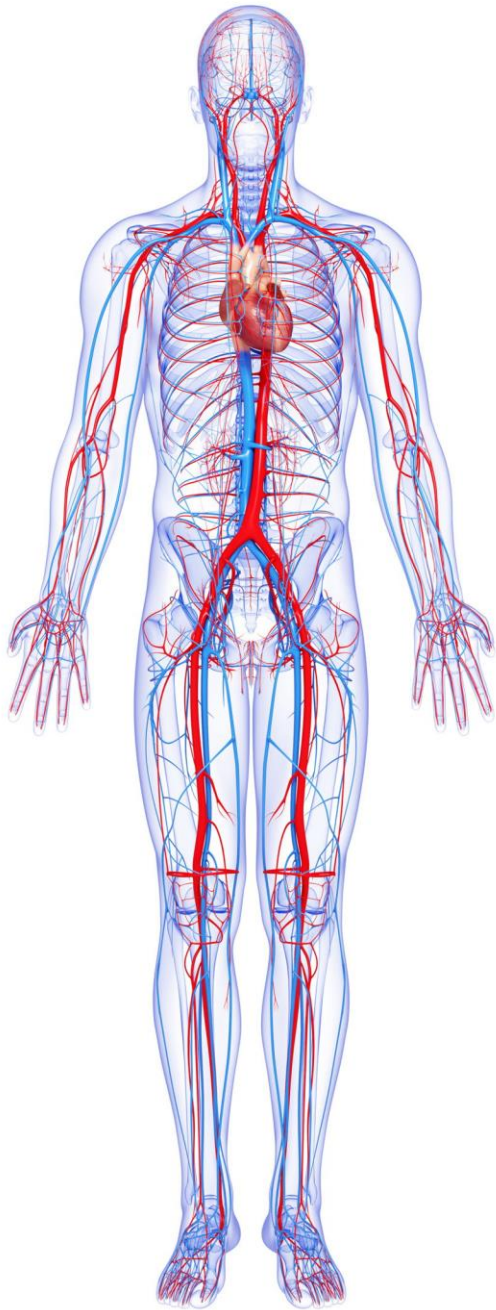

## MISSION

Our Mission is to lead the Healthcare industry in the region by providing Advanced medical equipment, Consumer care products and Supplies in order to meet the market needs. We are building capabilities to raise healthcare standards in the aim of meeting the needs of the future.

## VALUES

Integrity  
Quality  
Innovation  
Teamwork  
Safety  
Customer Satisfaction  
Professionalism

# MEDICAL SPECIALIZATIONS

Tina Medix is focused on a wide range of medical specializations including those in :

- Orthopedics
- Spine Surgery
- Interventional Radiology
- Neurosurgery
- General Surgery
- Cardiology
- ICU/NICU/CCU
- Anesthesiology
- Operating Rooms
- Infection Control
- Pulmonology

# GLOBAL CONNECTIONS

- Germany
- Switzerland
- France
- Sweden
- USA
- Canada
- Norway
- England

## OUR PARTNERS

In order to provide high quality products, Tina Medix has corporate collaborations with global companies:

- **Spineart**
- **Inomed**
- **Vexim/STRYKER**
- **AS Medizintechnik**
- **Pega Medical**
- **Axcent Medical**
- **Synimed**
- **Tedan Surgical Innovations**
- **Epiguard**
- **Dymedso**
- **Amnotec**
- **Z-Medica**
- **Peters Surgical**
- **Swemac Imaging**

# ORTHOPEDICS & SPINE SURGERY

## Spineart- Switzerland

### Specialty:

Production of Spinal implants such as Screws, Cages, Plates and Disc prosthesis by using unique technologies in the fields of Minimally Invasive Surgery, Motion Preservation, Fusion, Biologics, and Fractures Treatment.

Anatomical Area: Cervical, Lumbar and Thoracolumbar

### Mechanisms:

- MIS
- Cervical Fixation
- Thoracolumbar fixation
- Deformity
- VCF
- Interbody Fusion

*Made with unique Ti-LIFE Technology*

## Stryker - USA

### Specialty:

Design of Medical/Surgical Equipment, Orthopedics and Neurotechnology for the treatment of spine pathologies.

### Product Family:

- Vertebroplasty
- Kyphoplasty

**stryker**<sup>®</sup>

## Synimed - France

### Specialty:

Production & Design of Orthopedic solutions and Orthobiologies.

### Product Family:

- Antibiotic Cemented Nails
- Knee and Hip Spacers
- Bone cement
- Blending applications

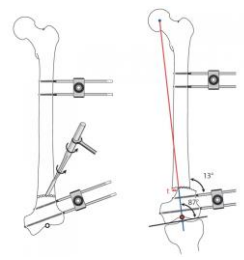

## Pega Medical – Canada

### Specialty:

Development of Advanced Solutions for Long Bone Deformities, Osteogenesis Imperfecta, Pseudo-arthritis and Hip Deformities for Children.

### Products:

- The Fassier-Duval Telescopic Nail IM System
- The Hinge Plate Pediatric Plating System
- The Gap Nail Endo-Exo Medullary System
- The Free Gliding SCFE Screw System
- SLIM ®, the Simple Locking Intra Medullary System
- Lollipop®, the Locking Pediatric Osteotomy Plate System
- Dr. Paley’s Osteotomy System

# INTRAOPERATIVE NEUROMONITORING

## *Inomed – Germany*

### Specialty:

Development & Manufacturing of Products and Treatments in the fields of Intraoperative Neuromonitoring (IONM), Functional Neurosurgery, Pain Therapy and Neurological Diagnostics.

### Examples of Specialties:

- Speech Mapping
- Motor-Mapping
- SEP Phase Reversal
- Monitoring of Cranial Nerves
- Spinal Deformities

### Examples of Surgeries:

- Vascular neurosurgery
- Vascular surgery
- ENT surgery
- Thyroid surgery

**inomed** 

### **Intraoperative Neuromonitoring**

ISIS Xpert  
C2 Xplore  
C2 NerveMonitor  
NeuroExplorer 2019  
ISIS Neurostimulator

### **Parathyroid monitoring - FLUOBEAM© LX**

### **Functional Neurosurgery**

iPS  
Stereotactic Systems  
ISIS MER System  
MicroDrive  
Biopsy

### **Diagnostics and Therapy (NIBS)**

Non invasive Brain Stimulation

### **Pain Treatment**

C3 CryoSystem  
LG2 Lesion generator

# PATIENT MONITORING SYSTEMS, ANESTHESIA WORKSTATIONS AND INTENSIVE CARE & TRANSPORT VENTILATORS

## *Axcent Medical – Germany*

### Specialty:

Production of ICU Ventilators, Emergency Ventilators, Anesthesia Machines, Patient Monitors and Vital Signs Monitors.

### Product Family:

- ❖ Anesthesia Machine : APUS X1, X2,X3
- ❖ ICU Ventilator : Lyra X1,X2
- ❖ Emergency Transport Ventilator : Musca X1, X2
- ❖ Patient Monitor : Cetus X12,X15,X1
- ❖ Vital Signs Monitor : Pavo

# SURGICAL TOOLS

## AS Medizintechnik - Germany

### Specialty:

Production of Surgical Tools that cover the entire spectrum from general surgery to specialized disciplines extending to the supply and disposal of sterile products.

### Product Family:

- Surgical Instruments
- Osteosynthesis Instruments
- HF Surgery Instruments
- Micro Instruments
- Arthroscopy Instruments
- Endoscopes
- Asipco® Sterilizing-Container Systems

## Peters Surgical - France

### Specialty:

Development of High-performance Medical Devices dedicated for surgery.

### Products:

- Sutures
- Clips
- Glue
- Meshes
- Laparoscopic Surgery Tools

# MEDICAL-ENGINEERING INSTRUMENTS & EQUIPMENT

## *Amnotec – Germany*

### Specialty:

Production & Design of Open surgery Instruments, Endoscopic Devices and Operating theatre Equipment.

### Product Family:

#### *Open Surgery*

Basic Instruments, ENT Instruments, Micro Instruments, Electrosurgery, Dental Instruments, Sterilizing Container

#### *Endoscopy*

Endoscopic Devices, Endoscopes, Laparoscopy, Endoscopic Urology, Endoscopic Gynaecology, Arthroscopy

#### *Operating Theatre Equipment*

Operating Lights, Operating Tables, Intensive Care Unit Beds

# AIRWAY CLEARANCE

## *Dymedso - Canada*

### Specialty:

Development of New Medical Technologies for Airway Clearance.

### Product: The Frequencer ®

### Mechanism:

The Frequencer® generates low frequency within the range of 20-65Hz and offers an adjustable intensity based on the patient's condition. Sound used at low and very low frequencies offers a completely new range of specific and targeted treatment possibilities in airway clearance.

# ISOLATION TROLLEY

## *Epiguard - Norway*

### Specialty:

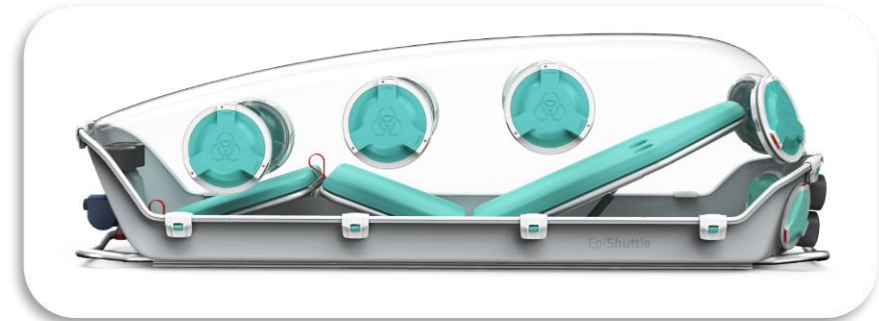

Production of Medical Isolation and Transportation Systems.

### Product: Epishuttle (Medical Isolation Trolley)

### Advantages:

- ✓ EMS System compatible
- ✓ Avoid Liability
- ✓ No disinfection required during transport
- ✓ Superior patient comfort
- ✓ Less PPE during transport
- ✓ Dual protection system (In and Out)
- ✓ Cost efficient
- ✓ Superior patient care

 EPI GUARD | Medical isolation and transportation systems

# IDEAL IMAGE SOLUTIONS

## Swemac Imaging – Sweden

### Specialty:

Development of Ideal imaging solutions for orthopedic and traumatic surgery procedures.

### Product: Biplanar®

### Advantages:

- ✓ Rotation free orthogonal AP/LM image capture
- ✓ Optimal access to the surgical site
- ✓ Shorter operating time
- ✓ Less anesthesia time
- ✓ Accurate and easy positioning
- ✓ Optimal sterility
- ✓ Less radiation
- ✓ Total control in each step

# HEMORRHAGE CONTROL PRODUCTS

## Z-MEDICA – England

### Specialty:

Production of External bleeding control Medical Devices – Hemorrhage control Products.

### Product: QuikClot®

### Product Range:

- **Hospital usage:** QuikClot® ICU, QuikClot Cath Lab® ...
- **EMS and Fire Rescue:** QuikClot Combat Gauze® LE...
- **Law Enforcement Usage:** QuikClot® Bleeding Control Kit® (BCK), QuikClot® Bleeding Control Bag® (BCB)...
- **Military usage:** QuikClot Combat Gauze TraumaPad®, QuikClot Combat Gauze® XL

Z-MEDICA®

# SURGICAL ACCESS SYSTEMS

## Tedan Surgical Instruments - USA

### Specialty:

Production of High-Quality Surgical Access Systems designed to optimize exposure and improve the surgeon experience.

### Product Family:

- **Anterior Cervical:** Phantom TL Conical Anterior Cervical Access System
- **Posterior Lumbar and Microdiscectomy:** Phantom MC Posterior Lumbar Surgical Access Systems...
- **Transforaminal Lumbar:** Phantom ML MIS Lumbar Surgical Access System...
- **Lateral Lumbar:** Phantom XL3 Lateral Lumbar Surgical Access System...
- **Anterior Lumbar:** Phantom GS General Surgery Access System...
- **Craniotomy:** Fukushima Neurological Holding System...
- **Cardiothoracic:** ULTRAVISION CT Surgical Access System...
