

Emergency Department (ED)

IT'S QUIKCLOT®

OR IT'S NOT

Because faster bleeding control¹ may mean faster time from triage to discharge.

A red sign with a white cross in a circle and the word "Emergency" in white, partially visible in the bottom right corner of the image.

IT'S QUIKCLOT® OR IT'S NOT

KAOLIN IS THE UNIQUE DIFFERENTIATOR FOR ALL QUIKCLOT® PRODUCTS

QuikClot is a proprietary technology, which consists of a nonwoven material impregnated with kaolin. Kaolin activates Factor XII on the intrinsic pathway, which in turn accelerates the clotting cascade leading to faster bleeding control.^{1,2}

MOVE FASTER FROM TRIAGE TO DISCHARGE

A vital addition to procedural carts, QuikClot® can routinely be used for a variety of “nuisance” bleeding, such as abrasions to traumatic injuries.

Emergency Department Bleeding Scenarios such as
Anterior nose bleeds (Epistaxis)
Wide range of lacerations
Bleeding AV fistula
Finger tip avulsions
Stabbing or puncture wounds
Varicose bleeding
Road rash
Wounds/ulcers
Postoperative wound dehiscence
Mutilated amputations
Skin tears

**FOR NEXT-GENERATION SPEED AND SIMPLICITY,
IT'S QUIKCLOT OR IT'S NOT**

SAFE AND INTUITIVE AS THE STANDARD OF CARE

- Safe and intuitive as standard gauze⁴
- Same placement technique as standard gauze

QuikClot® portfolio of products can handle all types of bleeds including interventional patients who are anticoagulated.^{1,5}

- The choice for over 10 years across all 5 branches of the military⁶
- More U.S. Military battlefield applications than any other hemostatic dressing⁶
- CoTCCC recommended hemostatic dressing of choice since 2008⁶

	Product	Product Order No.	Product Description	Units per Box
QuikClot® Non-Interventional®	QuikClot® 4x4 Non-Interventional 	301	10 cm. x 10 cm, in 4-ply	10/box
	QuikClot® Z-Fold Non-Interventional 	632	7.6 cm x 3.7 m, z-fold, in 1-ply	10/box
	QuikClot® Roll Non-Interventional 	633	7.6 cm x 3.7 m, roll, in 1-ply	10/box
QuikClot® Interventional®	QuikClot® Interventional® with 3M Tegaderm™ Bandage 	183	3.8 cm x 3.8 cm, hydrophilic pad, double-wrapped in a blister container with 3M Tegaderm™ bandage	10/box
	QuikClot® Interventional® Pre-Slit with 3M Tegaderm™ Bandage 	188	3.8 cm x 3.8 cm,, pre-slit hydrophilic pad, double-wrapped in a blister container with 3M Tegaderm™ bandage	10/box
	QuikClot® Interventional® 	467-Z	3.8 cm x 3.8 cm,, hydrophilic pad	10/box

QUIKCLOT NON-INTERVENTIONAL:

QuikClot Hemostatic Dressing is intended for use as a topical dressing for local management of bleeding wounds such as cuts, lacerations and abrasions. It may also be used for temporary treatment of severely bleeding wounds such as surgical wounds (operative, postoperative, dermatological, etc.) and traumatic injuries.

QUIKCLOT INTERVENTIONAL:

Applied topically as an adjunct to manual compression and is indicated for the local management and control of surface bleeding from vascular access sites, percutaneous catheters or tubes utilizing introducer sheaths up to 12 Fr. or up to 7 Fr. for patients on drug/induced anticoagulation treatment.

This material is only intended to provide an overview of the device. Prior to use, always refer to the device specific instructions for use (IFU), product label, and/or package insert for complete details regarding the proper use, warnings, precautions, contraindications, and the storage and handling of the device.
